

ROOSEVELT CALLED UPON FOR PROOF

House Demands His Evidence That It Is Afraid of Being Investigated.

HE IS EXPECTED TO REPLY

Resolution of the "Spanking Committee" Unanimously Adopted.

By United Press.
WASHINGTON, Dec. 18.—The report on the President's annual message agreed upon by the "Spanking" Committee of the House yesterday, calls upon the President to submit to the House the information upon which he based the insinuation that the members of the House were afraid of being investigated by the secret service.

Mr. Bennett of New York moved to strike out a paragraph of the resolution to the effect that the President's language was a plain intimation that Congressmen were afraid of an investigation by the secret service. The paragraph, however, when put to a vote, was carried, 270 to 14, and the resolution was then accepted unanimously.

The Senate resolutions were in line with those of the House. No actual rebuke resolution is possible of adoption until after the holidays. The belief is strong among the friends of the President that he will not plead that the submission of the records would be incompatible with the public good, and that he will send over what he has in hand. It is rumored he has plenty of ammunition.

Senate Dislikes Espionage.

The real purpose of the Senate investigation in the secret service is to stop the system of espionage over public persons, it is said. Many of the Congressmen resent this spying and say the present administration keeps watch over them surpassing that of the Czar over suspected subjects.

President Roosevelt is preparing to answer the House's request for information regarding the secret service work after the holidays. A corps of clerks is collecting data and it is understood that a detailed report will be given of every case where secret service has been used. The President says he does not regard the request as a rebuke, but on the other hand, thinks Congress needs enlightenment on the work of the secret service.

Text of Resolution.

The resolution reads as follows:
"Whereas, There was contained in the sundry civil appropriation bill which passed Congress at its last session, and became a law, a reference to employment of the secret service in the Treasury Department, and,

"Whereas, In the last annual message of the President of the United States to the House of Congress, it was stated in reference to the provision:

"The amendment (to the secret service law) in question was of benefit to no one excepting to those criminals and it seriously hampers the Government in the detection of crime and the securing of justice. In the present form the restriction operates only to the advantage of the criminal or the wrongdoer. The chief argument in favor of the provision was that the Congressmen did not themselves wish to be investigated by secret service men"; and,

"Whereas, The plain meaning of the above words is that the majority of Congressmen were in fear of being investigated by secret service men, and that Congress, as a whole, was actuated by that motive in enacting the provision in question; and,

No Justification of Charge.

"Whereas, Your committee appointed to consider these statements of the President and to report to the House cannot find in the hearings before the committee nor in the records of the House or Senate any justification of the impeachment of the honor and integrity of Congress; and,

"Whereas, Your committee would prefer, in order to make an intelligent and comprehensive report, just to the President as well as to Congress, to have all the information which the President may have to communicate; now, therefore, be it

"Resolved, That the President be requested to transmit to the House any evidence upon which he based his statement that the chief argument in favor of the provision was that the Congressmen did not themselves wish to be investigated by secret service men, and also to transmit to the House any evi-

TEACHERS PENSIONS IN FOUR STATES DR. ELLWOOD TELLS SOCIAL PROBLEMS

Virginia, Massachusetts and New Jersey Provide for Educators.

ST. LOUIS, Dec. 18.—Reports regarding pensions or other relief for superannuated teachers have been received by Supt. Blewett of the St. Louis public schools from practically every state in the Union. The reports are now being digested by Mr. Blewett with a view to the presentation of the results in a paper before a teachers' organization to meet in Kansas City during the Christmas holidays. The reports show that in four states: Virginia, Maryland, New Jersey and Massachusetts, the state pays a regular pension to superannuated teachers; that in five states, New York, Massachusetts, Ohio, Michigan and Indiana, there is legislative provision for local organizations among teachers, and that in two cities, St. Louis and New Orleans, the teachers themselves, without formal authority from either state or city, have formed successful annuity associations. The material gathered by Mr. Blewett will be used in promoting a teachers' annuity law before the approaching session of the Legislature.

U. OF M. GAINS IN ENROLMENT FORMALDEHYDE IN MILK AT HOSPITAL

Passes University of Iowa, Which Was Ahead Last Year.

TWENTY-FIVE ARE COMPARED

Harvard, Princeton, Chicago, Among Those Losing Ground.

The University of Missouri is one of those showing the greatest advance in academic enrolment this year over last year, according to statistics just compiled. Harvard is one university which shows loss. Columbia University leads in pharmacy and in its Teachers College, which has 950 students.

Missouri ranks seventeenth among twenty-five, Kansas, nineteenth.

The University of Missouri surpassed Iowa this year, reversing last year's positions as to enrolment.

Men exceed women in number in the College of Arts and Science at Missouri, contrary to the prevailing rule in the West. As set forth in the New York Evening Post, twenty-five representative universities rank this year as follows, the summer session of 1908 being included in each instance, and due allowance being made for summer students who returned for work this fall:

	1908.	1907.
1. Columbia	5,675	5,197
2. Harvard	5,342	5,346
3. Michigan	5,188	4,953
4. Chicago	5,114	4,394
5. Cornell	4,700	4,293
6. Minnesota	4,687	4,297
7. Pennsylvania	4,553	4,134
8. Illinois	4,400	4,172
9. New York Univ'ty.	3,951	3,648
10. Wisconsin	3,876	3,401
11. California	3,751	3,346
12. Yale	3,466	3,435
13. Syracuse	3,294	3,162
14. Nebraska	3,154	2,812
15. Northwestern	3,113	2,714
16. Ohio	2,700	2,344
17. Missouri	2,558	2,274
18. Iowa	2,356	2,188
19. Indiana	2,113	1,667
20. Kansas	2,086	1,932
21. Stanford	1,541	1,594
22. Princeton	1,314	1,311
23. Western Reserve	1,016	914
24. Virginia	757	757
25. Johns Hopkins	698	651

The only changes since last year, therefore, are that Columbia has changed places with Harvard, Pennsylvania has passed Illinois, Wisconsin and California have passed Yale, and Kansas has been outstripped by Indiana. Omitting the summer session enrolment, the order is naturally somewhat different, as shown in the following table:

	1908.	1907.
1. Michigan	4,637	4,489
2. Columbia	4,540	4,441
3. Minnesota	4,355	3,957
4. Harvard	4,336	4,373
5. Cornell	4,246	3,878
6. Pennsylvania	4,223	3,896
7. Illinois	4,052	3,805
8. New York Univ'ty.	3,457	3,233
9. Yale	3,448	3,299
10. Wisconsin	3,237	3,128
11. California	3,199	2,978
12. Syracuse	3,084	3,043
13. Northwestern	2,912	2,624
14. Nebraska	2,921	2,651
15. Chicago	2,663	2,421
16. Ohio	2,442	2,125
17. Missouri	2,220	1,955
18. Iowa	2,122	1,964
19. Kansas	1,896	1,758
20. Stanford	1,532	1,583
21. Indiana	1,367	1,175
22. Princeton	1,314	1,311
23. Western Reserve	1,016	914
24. Virginia	757	757
25. Johns Hopkins	698	651

So it is to be seen that Columbia and Minnesota have passed Harvard since last year, and Cornell has passed Pennsylvania. New York University has gone ahead of Yale, and California has changed places with Syracuse, Northwestern with Nebraska, Missouri with Iowa, and Indiana with Princeton.

Chicago, Harvard, Princeton, Stanford, Virginia, and Yale have had losses in the number of men students, while California, Michigan, Minnesota, Nebraska, and Northwestern have fewer women students than they had last year. At more than half of the Western institutions there are more women than men in the academic department. The exceptions are Chicago, Indiana, Michigan, Missouri, Ohio, Western Reserve, and Wisconsin. In all of the Eastern institutions, on the other hand, with the possible exception of Cornell and Syracuse, which do not give the separate figures
